Project#1:

Organization : Globallogic Technologies (P) LTD
Project : R/MI
Role : Associate Analyst
Duration : Mar' 18 – Nov'18

Description:

A sub project of R/MI is assigned which is based upon the application of automatic damage identifier of a vehicle, we get batch of images of parts of vehicles and the category must be specified and sent to quality analyzer server for further process.

Responsibilities:

- Screening the given image data according to guidance.
- Categorizing the type of damage appeared in the shown image.
- Submitting the categorized data for further qualifying process.

Project#2:

Organization : **Nvidia Graphics (P) LTD**

Project : **Autonomous vehicle.**

Role : **Process Executive- Analyst.**

Duration : **Dec'18 – Nov'19.**

Description:

There are many aspects for the car to recognize and take decisions accordingly for better understanding different projects were assigned. We have several sub projects connected to the main one, we receive a batch of frames through which we have to process and make sensible data and then we assure the quality of the data.
